Restaurant Game is an intense co-op cooking simulator where you work towards making the best restaurant in town.

Cook orders for your customers and unlock new recipes by progressing through the game. Earn money and spend your money wisely, team up with up to 4 people managing the restaurant.

Key Features

- Take orders from customers and prepare their food using the intricate food system.
- Manage the restaurant with your friends.
- Progress through the game by spending your money on upgrading your restaurant and kitchen!
- Unlock more variety to improve guest rating.
- Resource management, make sure you don't run low on ingredients.

Gameplay

Restaurant Game is an intense and chaotic simulator where you manage a restaurant and try to make the best restaurant in town. The players take and prepare orders for their customers. With the multiple recipes and ingredients you will never have a stress free work day.

Manage your resources and equipment. Order ingredients and buy new recipes for customers to order. Close the store and prepare your workspace whenever you want to.

Don't burn up the kitchen, keep rats away from the kitchen & more chaotic elements you need to manage!

Why Restaurant Game

Restaurant Game is a co-op simulator, a genre that is widely popular and has room for more games.

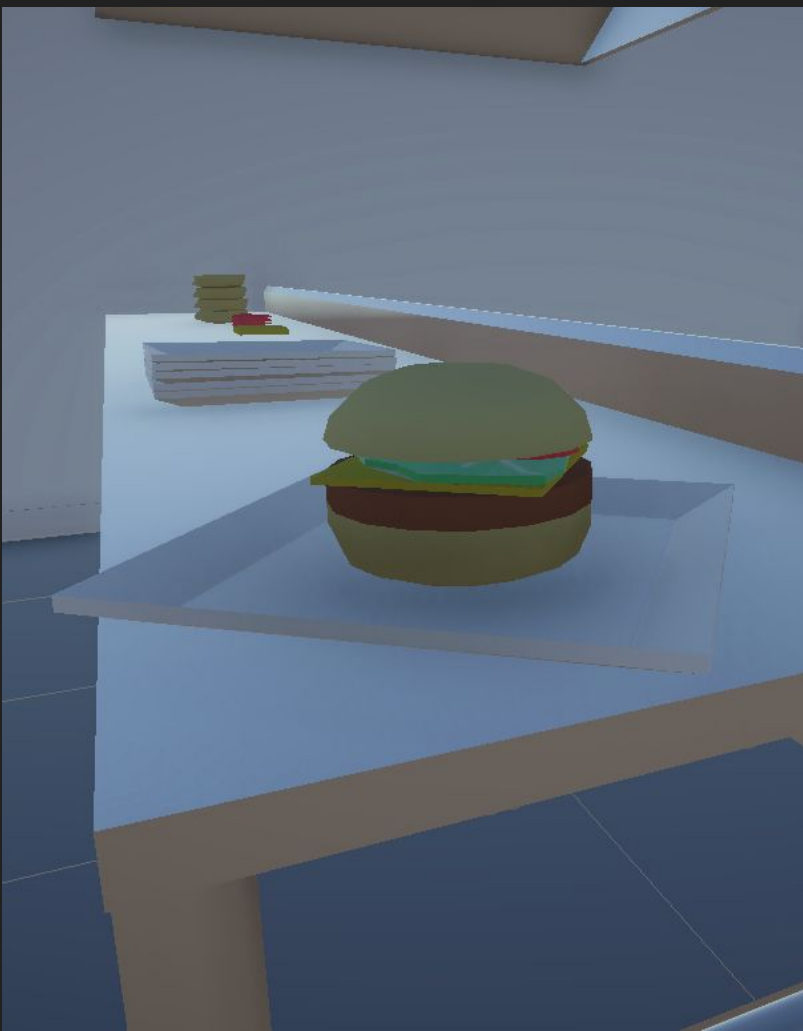

Wide appeal

- Fun game that everyone can play.
- Simple game that doesn't need huge commitment.

Unique gameplay

- Manage your own restaurant.
- Multiple recipes and progression.
- Play with your friends for a very enjoyable time.

Successful Genre

Restaurant Game is a restaurant simulator game with unique gameplay. Similar games within the genre that have succeeded such as One Armed Cook, Cooking Simulator, where the core gameplay is cooking food and completing orders.

Restaurant Game is a twist on the genre by including progression and kitchen customisation. With a goal to work towards, this game will have longer average playtime and enjoyment.

Restaurant Game is inspired by a game called "Citizen Burger Disorder" which was a flash game released 2014 and shut down shortly after.

About us

Restaurant Game is made by a single developer based in Boden, Sweden.

Budget

Investment needed: 631,694 kr (details included in budget sheet)

With an estimated development time of 12 months.

Trends and Projections

In 2021-2022 One Armed Cook had an average of around 1500 concurrent players. With millions of views on Youtube it shows that this genre is only growing.

With this huge increase in demand for fun simulator games Restaurant Game fits right in. With Restaurant Game being more of a management focused and progression based game, we believe that this game is just what the people want.
